FROM NOROFF TO DEAKIN UNIVERSITY OUR PARTNERSHIP – YOUR FUTURE

The Noroff Institute and Deakin University have partnered to enable students and graduates from Noroff diploma programs to gain significant advanced standing in Deakin bachelor degree programs.

First established in 1987, the Noroff Institute has grown to become one of Norway's largest schools in film, video, sound, multimedia and animation creative production programs, as well as other highly demanded information technology programs.

Graduates from Noroff programs are exceptionally well prepared when entering Deakin programs and are highly valued by Deakin academic staff members. A graduate from the Noroff Oslo Multimedia Design 1 and 3D Design and Animation Diploma programs, Mr Daniel Skovli, was recently appointed as the Technical Director and Studio Coordinator at the state-of-the-art Deakin Motion.Lab, Australia's largest and most sophisticated optical motion capture facility.

Deakin University is proud to be associated with one of Norway's most dynamic and exciting educational institutions.

DEAKIN UNIVERSITY - BACHELOR OF FILM AND DIGITAL MEDIA

The Bachelor of Film and Digital Media comprehensively explores the theories, techniques and practices of a major media discipline, and will build your skills in a range of other creative arts theory and practices.

The major disciplines of Film, Animation and Photography focus on the development of the creative and analytic skills required for professional and artistic practices. You will be exposed to the diverse histories of the mediums and the critical and theoretical ways in which these mediums can be analysed and received.

This degree comprises study in many areas including narrative structure, exhibitions and folios, project management, visual language, online collaboration and exhibition, digital video and TV studio production, short film making, history and theory of film making, character animation, special effects, darkroom and digital manipulation, small to large photographic formats and photographic history and theory.

This course will prepare you for the opportunities and challenges of the media and creative industries by allowing cross discipline collaboration, multi-skilling, internships, international study and study in professional practice and entrepreneurship. The program draws upon the expertise of Deakin staff - who are active media practitioners - and the industry, through visiting, special guests and casual academic staff.

WHY CHOOSE DEAKIN UNIVERSITY?

Deakin University is an exciting and innovative university with a challenging vision – to be Australia's most progressive university – Deakin is already recognised for the relevance, innovation and responsiveness of its teaching and learning, research partnerships and international activities.

Deakin University places great emphasis on the quality of its teaching and learning and on the use of highly innovative teaching and delivery methods. Multiple course entry and exit points, deferment, and full-time and part-time study all allow you the flexibility to structure your study to suit your lifestyle. Courses are developed in consultation with industry, and aim to give you the personal and professional skills to achieve success in the labour market throughout the world.

The professional orientation of Deakin's programs, our research profile and supportive staff and friendly environment combine to make Deakin University a leader in the provision of contemporary education.

FACULTY OF ARTS AND EDUCATION

Deakin's Arts courses offer opportunities for intellectual and artistic exploration together with the professional skills and aptitudes necessary for the flexible workplace of the future. Courses are rigorous and innovative, with a multidisciplinary emphasis that allow you to tailor your studies to meet career and personal interests.
